

DESCRIPTION

Coloredcrete sealer is a clear sealer; recommended for sealing concrete paving driveways, factory floors, pattern concrete, stampcrete, stencilcrete, spray-o-crete, natural slate, pebble mix and masonry surfaces. Not recommended for smooth steep concrete paving.

USE

Provides a protective coating to preventive oxide color loss and surface powdering. Prevents concrete staining due to oil, grease, and dirt.

APPLICATION

SURFACE PREPARATION

Remove dirt, salts and stain before applying the first coat. Smooth steel trowelled, hardened surface and concrete must be broom washed thoroughly flushed with water and allowed to dry completely before coating.

APPLICATION METHOD

Two coats of sealer are recommended for an attractive and durable finish. Apply by broom, roller, or spray. Avoid mist spraying for the first coat to ensure penetration and adhesion.

DRYING TIME

Dries in 30 minutes at 25 degrees Celsius. Allow at least 2 hours before applying the 2nd coat. Ensure weather conditions favorable as rain, dew or moisture on the uncured coating will cause damage.

CLEAN UP

Clean up equipment's with coloredcrete solvents.
